

KIMBERLY'S 37TH BIRTHDAY SKULLDUGGERY

EXTRA HINTS

1. "Warrior" in Spanish? What about "Sorrows"? There are lots of Latinos around to ask :-)
2. Cacao is the plant that chocolate comes from & "home" is where the game started.
3. Blue-grey fade-icus, pigeons, Dodo, Owlus Plasticus, the Colorful Indianesque, White Dove (w/ olive branch), Crow (or Raven!), Parrotus Pavementicus
4. The instructions to NOT follow are on the map page, as is everything you need.
5. The first 7 words are where you need to go, but ones misspelled.
6. Kentucky's second largest city starts with an L (& it isn't Louisville) & it's on our map. "In 5 years" is about the blocks.
7. The DOT & the SLASH are '.' & '/' like you use on websites. Also, I hate to pick up her poop after Baozi's been chomping letters.
8. More fun with Spanish translations. I'd walk to 19th & Mission & ask for the translation for at least two words.
9. The order of the shots can be figured out by their overlap. That order is the order you should walk in. Oh & where to start? Inspect some parking meters at home base.
10. The answers to the previous puzzles/riddles fill in the blanks. Call 'Deep & he'll give you any three you like.
